SUNSEEKER PREDATOR 72 - 2006

Introducing this **Sunseeker Predator 72 (2006)**, an outstanding example of Sunseeker's iconic performance line. This particular unit is presented in **exceptional condition**, having undergone a **full interior and exterior refit**, giving the yacht a fresh, modern look while preserving the elegant Predator DNA.

With only **600 verified engine hours**, the yacht has been lightly used and meticulously maintained. It is powered by the **larger engine configuration**, offering not only significantly better fuel efficiency but also delivering the thrilling performance for which the Predator series is known. The result is a yacht that is exceptionally fast, responsive, and smooth underway.

The exterior has been fully renewed, including **brand-new teak** across the cockpit, side decks, and swim platform. All exterior cushions and sunpads have been replaced, enhancing comfort and aesthetics. The spacious cockpit features a generous seating area, wet bar, and seamless access to the **swim platform**, perfect for water toys and tender operations.

Inside, the yacht feels completely transformed thanks to upgrade upholstery, improved lighting, and refreshed finishes throughout. The electric **opening hardtop** floods the salon with natural light and creates a fantastic open-air atmosphere when cruising.

The lower deck offers **three ensuite guest cabins**, while the **separate crew cabin is accessed independently from the aft**, ensuring complete privacy for guests. The galley is **fully equipped**, and the entire interior benefits from the **modern touches introduced during the refit**.

Overall, this Predator 72 is a **rare opportunity**: a stylish, powerful, and fully refreshed yacht blending performance, luxury, and reliability — ready to be viewed and delivered to her next owner.
